

SIDE NOTES MODULE

Allows you to add and track miscellaneous balances on existing notes. This module allows you to set up definable payment streams to ensure the collectability of side notes.

EFFICIENCY.

Displays side note balances on the same screen as primary balances, which improves awareness of and collection on secondary balances.

POWER.

Allows creation of repair, insurance, and other balances.

Tracks delinquency by balance type.

Allows you to apply payment by balance type.

Tracks payment history for each balance.

CONVENIENCE.

Tracks side notes with the primary balance to ensure prompt payment.

Prints side note contracts.

Allows up to 99 separate side note balances running simultaneously with unique due dates and amounts.
